Après validation de votre demande de participation, vous recevrez un lien pour participer au webinaire.

INFORMATIONS COMPLEMENTAIRES

CEBI GROUP

Since 1976, Cebi Group has been manufacturing electromechanical products for the automotive and household appliance industries. The product range covers a wide range of components such as:

- Switches & sensors (temperature, speed , water presence, level, ...)
- Actuators, heaters and electric motors
- Washer systems including pumps (worldwide leader)
- Traction motors, DC/DC converters & Battery chargers
- Vehicle body parts and closing mechanisms

In addition, the newly inaugurated laboratory of Cebi in Luxembourg offers a complete portfolio ranging from 3D printing and material analysis to mechanical, environmental and climatic testing, all the way to EMC testing.
