

Technology Site Visit

Energy efficiency and productivity optimization through the use of resistance welding and industrial bonding technology

NIMAK GmbH, Wissen

on Wednesday, November 16, 2022

- 10:30 h** **Arrival of the participants**
- 11.00 h** **Welcome and opening**
- Andreas Langsdorf, Referent Interreg Projekt PAE Rheinland-Pfalz
 - Dr. Niels Hammer, CEO NIMAK
 - Kay Nagel, Vertriebsleiter NIMAK
- Moderation: Kay Nagel
- Introduction Interreg Project Pole Automobile Européen (PAE)**
- Vincent Carel, CCI Grand Est, Head of Interreg Project PAE
- „Presentation of NIMAK GmbH“**
- Dr. Niels Hammer, CEO
- „Guided tour through the company“**
- Dr. Niels Hammer und Kay Nagel
- 12:20 - 13 h** **Lunch Break ca.**
- Getting to know the products of NIMAK GmbH**
- Visit of the Technology Centre
- Discussion and networking with NIMAK product experts**
- Hand welding guns: C. Demmer
 - Robot welding guns: J. Schulte
 - Automation: M. Arndt
 - Gluing and dosing technology: M. Moro
 - Development: S. Löcherbach and B. Rödder
- Closing words and final conclusion**
- Dr. Niels Hammer
 - Andreas Langsdorf, PAE: Thanks to NIMAK, next PAE-events
- 15:00 Uhr** **End of event**

Registration:

Additional Informations

NIMAK GMBH

NIMAK is the world's only supplier of resistance welding and adhesive bonding technology. The company, headquartered in Wissen, is regarded as an innovation leader by customers and users. As the inventor of the robot welding gun, NIMAK has helped this technology achieve a breakthrough and is now the largest German and one of the leading international manufacturers in this field. The joining technology specialist from the Westerwald region is the only one that has clearance from all premium suppliers in the automotive industry to meet customer-specific standards for welding guns. In addition, the product portfolio includes manual welding guns, welding machines, and bonding and adhesive dispensing systems. The company also develops individualized automation solutions for all applications. With more than 50 years of experience in the "perfect connection", NIMAK is active around the globe. 250 employees support customers from various industries - especially automotive, consumer goods, aerospace and metal processing - with their production challenges and accompany them into new markets or new technological territory. Since July 2020, the company has belonged as an independent brand to the TÜNKERS group of companies which, with 1,500 employees and 13 branches worldwide, is known as the market leader for automation tasks relating to body-in-white.

Who do we want to address with this event?

1. Manufacturing companies automotive & non-automotive of any size that are interested in using welding and industrial bonding technologies in their production.
2. System providers, engineering and service companies in production planning that can use / offer these technologies.
3. Trade partners/distributors for exhibition and distribution
